Parking & Access During Construction

All access to MV Hospital and Windemere is now via the Eastville Avenue entrance. The Beach Road entrance and parking lots are closed for the duration of the construction of the new Hospital.

Patients going to the Emergency Room, Dialysis, Dental Center, Lab or Rehab may park in the ER parking lot.

All other patients & visitors should proceed to the new lots behind the Hospital and follow signs to the New Main Entrance. From there you will enter the Hospital near the Main Lobby.

With apologies for the inconvenience, we thank everyone for their patience as we begin anew.
