

Updated Parking & Access During Construction

Beginning November 17th, for the following 4 to 6 weeks, the **ONLY** access to the Main Entry and the parking areas behind the building is via the **BEACH ROAD ENTRANCE**.

There is no access from the Eastville Avenue entrance to those parking areas during this phase of construction.

The ER parking lot will remain open, but due to limited space, will be restricted to patients going to the Emergency Department, Dialysis and Rehab **ONLY**.

Please check our website periodically for updates, as access will change.

With apologies for the inconvenience, we thank everyone for their patience as we begin anew.
